PROFILE

As a motivated Software Engineering student, I possess a robust grounding in both Computer Science and Commerce. My education is currently being enriched at Aptech Metro Star Gate, Pakistan, where I am honing my technical abilities through practical programming and project management experiences. My academic and entrepreneurial journeys have equipped me with a distinctive mix of technical know-how and business savvy, particularly in the realm of web application services. I have a reputation for crafting customized digital solutions that bolster business visibility and user interaction. Eager to apply my competencies, I am dedicated to making a significant impact on innovative projects and solutions.
